DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 6-7 and 9-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Hsieh (USPN 4,902,910). Hsieh discloses, in Fig. 8, a circuit comprising: “a voltage divider (4-1A)”; “a potential detector (4-2A)” having “a first noise filter (80 and 83)” having “a delay means (80)” and “an operating means (83)” and “a second noise filter (100 and 202); and “a buffer (remainder of circuit)”, all connected and operating similarly as recited by Applicant.

Allowable Subject Matter

Claims 5 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 5 and 8 are deemed allowable because the cited prior art does not disclose the specific circuit such as recited in claims 1-4, 6-7 and 9-11 wherein the “second noise filter” has “a delay means” and “an operating means” nor is it seen that would a modification would be obvious.
